

TEJASVINI PATEL

QA Engineer | Manual & Automated Testing | Web, Mobile & API

07909 464379 | tejasvini18p@gmail.com | linkedin.com/in/tejasvini-patel-qa | www.tejasvinipatel.com | UK – Right to Work

PROFESSIONAL PROFILE

QA Engineer with 5+ years' hands-on experience in manual and automated testing of web, mobile, and API-driven applications within Agile/Scrum teams. Strong background in structured test case design, exploratory testing, and risk-based prioritisation, working closely with developers and product owners to clarify acceptance criteria and requirements before and during development. Experienced across mobile (iOS & Android via Appium), web, and REST API testing (Postman, RestAssured), with additional expertise in BDD automation, CI/CD pipelines, and security testing. Comfortable evaluating real-world software behaviour with precision and attention to edge cases — skills directly transferable to reviewing, evaluating, and providing structured feedback on AI model outputs.

KEY ACHIEVEMENTS

- Reduced manual regression effort by 40% by building BDD automation frameworks integrated into GitLab CI/CD, delivering continuous feedback on every build.
- Cut regression execution time from three days to under four hours by replacing manual test cycles with Playwright and Selenium WebDriver suites across microservices applications.
- Reduced post-release defects by 30% across five web applications through structured end-to-end, smoke, integration, and regression coverage with sprint-level QA reporting.
- Maintained 98% test coverage per sprint and zero failed UAT rounds across all delivered projects through disciplined, requirements-driven test design.
- Identified 15 critical security vulnerabilities (XSS and SQL Injection) via OWASP ZAP prior to launch, reducing application security risk by 60%.

RELEVANT SKILLS FOR QA & EVALUATION WORK

- Manual Testing:** Test case design · Exploratory testing · Regression · Smoke · Integration · System · UAT · Risk-based test design · Requirements & acceptance-criteria review
- Mobile & Web Testing:** Appium (iOS & Android) · Cross-browser and cross-device testing · Usability & UX validation
- API & Integration Testing:** Postman · RestAssured · REST / JSON / XML · Microservice integration testing · Backend data validation
- Test Automation:** Playwright (TypeScript) · Selenium WebDriver · Cypress · Cucumber/JUnit · Behave/Gherkin · POM
- Agile Delivery:** Sprint planning · Backlog refinement · Defect triage · QA reporting · Cross-functional collaboration with developers and product owners
- Tools & CI/CD:** JIRA · TestRail · Confluence · GitLab CI/CD · GitHub Actions · Azure DevOps · Jenkins · Docker
- Languages:** TypeScript · JavaScript · Python · Java · C# · SQL

EMPLOYMENT HISTORY

Senior QA Test Engineer & SDET

April 2025 – Present

Elegant Systems Ltd. · Swindon, UK

- Design and execute Playwright (TypeScript) and Selenium WebDriver BDD suites (Behave/Gherkin) for functional, regression, integration, and exploratory testing of complex web applications.
- Automate REST API and integration testing across 50+ microservice endpoints using Postman and RestAssured; validate edge cases with detailed requirements clarification.
- Build and maintain GitLab CI/CD test pipelines, cutting release time by two days per sprint; write SQL queries to validate database integrity end-to-end.
- Participate in sprint ceremonies; review acceptance criteria with product owners; produce release-readiness QA reports; mentor junior QA engineers.

Freelance QA Automation Engineer & Part-Time IT Trainer

August 2024 – April 2025

Self-Employed (Freelancer.com) · Remote, UK

- Designed a scalable Playwright (JavaScript) UI automation framework for an e-commerce platform using POM, covering login, add-to-cart, and checkout journeys.
- Performed manual API testing using Postman, validating CRUD operations; conducted smoke, exploratory, and regression testing with risk-based prioritisation; applied OWASP Top 10 security concepts.
- Delivered software testing training (Manual Testing, SDLC, STLC, Playwright, Postman, JIRA, GitHub) to learners transitioning into QA roles, with hands-on project mentoring and structured written feedback.

Software Test Engineer & Penetration Tester

December 2022 – March 2024

eVision IT Solutions Pvt. Ltd. · India

- Built Playwright, Selenium WebDriver, and Cucumber (Java) frameworks integrated into Jenkins and GitLab CI/CD, cutting regression execution from three days to under four hours.
- Delivered functional, regression, smoke, integration, performance, and security testing across five web applications from requirements through to production sign-off.
- Led OWASP ZAP penetration testing identifying 15 critical XSS and SQL Injection vulnerabilities prior to launch; led defect triage with zero failed UAT rounds across all deliverables.

Software QA Engineer & Security Analyst

July 2022 – December 2022

Crucial Software and IT Park Pvt. Ltd. · India

- Wrote manual and automated API integration tests and backend validation scripts in Python and Java, reducing integration defect rates by 20% across three consecutive sprint releases.
- Executed smoke testing, deployment verification, and environment validation; contributed to Git version control and code review processes.

Software QA Tester

February 2020 – June 2022

U.N. Mehta Institute of Cardiology · Ahmedabad, India

- Planned and executed manual functional, regression, system, and integration test cycles for safety-critical healthcare software used by 500+ clinical staff, exercising careful judgement on edge cases and patient-safety implications.
- Maintained full traceability matrices, test plans, and defect logs; contributed to regulatory audit preparation, achieving zero findings across all audit cycles.

EDUCATION

MSc Information Technology – KSV University, India

Software Testing & QA · Network Security · Database Systems · Web Technologies · Project Management

BCA – Bachelor of Computer Applications – KSV University, India

Software Testing Fundamentals · Python & C# Programming · Database Management · Web Development

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

CAST – ASTQB (ISTQB equivalent) · Automation Test Engineer QLS L7 · Agile Scrum Master QLS L7 · OWASP ZAP & Web App Penetration Testing · CompTIA A+ QLS L7 · AWS Certified Solutions Architect – Associate
